

# SAVE SOUTH PARK

I'm adding my name, address and signature to this petition to express my opposition to any current or future proposed demolition of the South Park Middle School Building. I would like to see this historic building renovated or restored and put to use as a high school that serves the community in and for which it was originally founded. I oppose proposals to bus local South Park area students to neighboring schools when there are educational facilities in the South Park community that can be developed and utilized.
